CASE STUDIES

CASE STUDY # 1

Odoo Implementation Services

Client: A Mid-Sized Manufacturing Company

Challenge

The client struggled with fragmented operations due to multiple disconnected systems for inventory, production, and finance, leading to delays and inefficiencies.

Solution:

- Deployed Odoo's Manufacturing and Inventory modules.
- Migrated the old system data to Odoo finance module.
- Customized workflows for production scheduling and inventory tracking.

Impact:

- Reduced operational delays by 40%.
- Enhanced inventory accuracy to 98%.
- Achieved seamless data flow across departments, improving decision-making.

Client: A Retail Chain with 10+ Outlets

Challenge

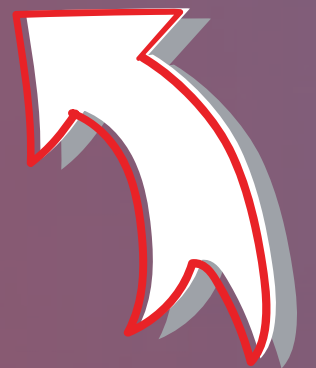

The client required a centralized POS system integrated with their eCommerce platform and backend operations to streamline inventory management and customer data.

Solution:

- Customized Odoo POS to sync with their Shopify eCommerce platform.
- Integrated real-time inventory updates across all outlets.
- Enabled personalized promotions through customer data analytics.

Impact:

- Improved transaction speed by 30%.
- Increased online and offline sales synchronization by 100%.
- Enhanced customer retention with personalized offers.

CASE STUDY # 2

Odoo Customization and Integration

odoo

Client: A Mid-Sized Logistics and Supply Chain Company

Challenge

The client faced delays, inventory mismatches, and inefficiencies due to a lack of real-time tracking and coordination between fleet operations and warehouses.

Solution:

- **Fleet Management Customization:** Integrated GPS for real-time tracking and automated vehicle maintenance alerts.
- **Shipment Tracking:** Dynamic route optimization and customer-facing portals for live updates.
- **Warehouse Module:** Barcode-based inventory tracking and seamless sync with fleet operations.
- **Custom Dashboard:** Insights on delivery performance and fleet utilization.

Impact:

- Reduced delivery delays by 35%.
- Improved stock accuracy by 20%.
- Increased customer satisfaction by 15%.
- Lowered operational costs by 10%.
